-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of polymethylmethacrylic species and subspecies in the reply filed on 12/2/2004 is acknowledged.

Response to Amendment

2. Applicants' amendments filed on 12/2/2004 have been entered. In light of applicants' amendments, a further restriction/election is required for the reason set forth below.

Election/Restrictions

3. This application contains claims directed to the following patentably distinct species of the claimed invention:

- a flat non-porous unitary matrix made of polymethylmethacrylate and
 - a visible layer made of polymethylmethacrylate,
 - a visible layer made of polyvinyl chloride,
 - a visible layer made of polycarbonate.
- a flat non-porous unitary matrix made of polyvinyl chloride and
 - a visible layer made of polymethylmethacrylate,
 - a visible layer made of polyvinyl chloride,
 - a visible layer made of polycarbonate.
- a flat non-porous unitary matrix made of polycarbonate and

- a visible layer made of polymethylmethacrylate,
- a visible layer made of polyvinyl chloride,
- a visible layer made of polycarbonate.

In addition, applicant is also required to elect a species of the solid surface among a countertop, a sink, a lavatory, a desktop, a table top, a chair and a windowsill.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of the flat non-porous unitary matrix, a single disclosed species of the visible layer, and a single disclosed species of the solid surface for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ling X. Xu whose telephone number is 571-272-1546. The examiner can normally be reached on 8:00 - 4:30 Monday - Friday.
